Singing Turtle Press, United States, 2000. Paperback. Condition: New. First Edition, First edition. Language: English. Brand new Book. If there's one question that many parents would rather not hear when Sophia or Aiden gets home from school, it's, "Mom, can you help me with my algebra homework?" And nowadays that question gets asked by younger and younger children because algebraic thinking has been inserted into the math curriculum as early as 5th grade, sometimes even in 4th grade! So what helps parents recall algebra and also helps students learn it in a friendly way? The Algebra Survival Guide, now updated in its Second Edition. Following on the success of the award-winning First Edition book and written by teacher/tutor Josh Rappaport, the Second Edition Guide offers time-tested advice for understanding the key areas of this gateway math subject. The new Algebra Survival Guide features a unique Q&A format so students hear their own questions echoed in the text. The book's answers, written in the voice of a friendly tutor, provide conversational responses, along with step-by-step instructions in English right next to the math steps. Each page is a one-page mini-lesson so students can focus without feeling overwhelmed. Following each lesson is a short set of practice problems, offering students instant feedback. At the end of each section, chapter tests provide comprehensive checks on understanding. Since word problems are often the highest "hurdle" of algebra, the Second Edition contains a new 62-page chapter on advanced word problems. This chapter provides detailed strategies for setting up and solving word problems on such dastardly areas as rate, time and distance, work performed, mixture formulas, and even those crazy problems about Joe being three years older than four times Jane's age 10 years in the future. In its twelve content chapters the 352-page Second Edition covers all...
